## DECLARAÇÃO

Declaramos, para os devidos fins, que as baterias VRLA UNIPOWER, comercializadas pela UNICOBA INDÚSTRIA DE COMPONENTES ELETRÔNICOS E INFORMÁTICA LTDA, são baterias de chumbo ácido reguladas por válvula (VRLA), popularmente conhecidas como "baterias seladas".

As baterias VRLA se caracterizam, principalmente, pelo confinamento do eletrólito e pela elevada eficiência da recombinação interna de gases, quando em operação. Duas tecnologias compõem esse tipo de bateria:

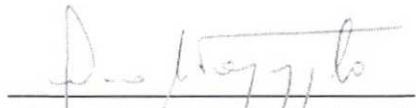

- Tecnologia AGM (Absorbed Glass Mat), em que o eletrólito, composto de água e ácido sulfúrico, se encontra confinado por absorção em manta de microfibra de vidro;
- Tecnologia GEL, em que, ao eletrólito, é adicionado, por exemplo, dióxido de sílica, que é elemento gelatinizante do eletrólito.

Por manter o eletrólito imobilizado e não havendo, portanto, vazamento de eletrólito em caso de acidente, essas baterias são consideradas seguras para transporte aéreo, não havendo restrição por parte da IATA – Provisão Especial A67 (Atualizada pela A164). Essa Resolução informa que "baterias à prova de vazamentos, que atendam aos requisitos da Instrução 806 das Instruções de Embalagem, não estão sujeitas a essa Regulamentação se, a uma temperatura de 55°C, o eletrólito não vá fluir a partir de uma caixa rompida ou fraturada e se não houver líquido livre que possa fluir e se, quando embalada para transporte, os terminais estiverem protegidos contra curto circuito."

Em termos de potencial de risco, as baterias VRLA AGM e as baterias VRLA GEL são absolutamente equivalentes e, pela mesma razão que elas não encontram restrição para transporte aéreo por parte de diversas Companhias Aéreas, assim como pela IATA.

Lembramos que, na legislação de transporte terrestre para Transportes Perigosos (Resolução nº 420 da ANTT – Agência Nacional de Transporte Terrestre), as baterias VRLA não sofrem qualquer restrição para transporte terrestre em qualquer quantidade, desde que uma etiqueta contendo essas informações básicas seja afixada ao documento que acompanha a mercadoria, para orientação da fiscalização.

São Paulo, 22 de março de 2019.

Eng. Marco Antonio Tognazzolo  
Gerente de Engenharia - BATERIAS

Cotia, 14 de agosto de 2020

## DECLARAÇÃO PARA EMBARQUE DE PRODUTOS COM BATERIA DE ION LÍTIO

### SEÇÃO II PI 967

A MAGNAMED TECNOLOGIA MÉDICA S/A, localizada na rua Santa Mônica, 801/831 – Capuava, Cotia, São Paulo, CEP: 06715-865 inscrita no CNPJ/MF sob o número 01.298.443/0002-54, declara, para os devidos fins de direito, que o material oferecido para o embarque - Ventilador pulmonar Fleximag Plus - é caracterizado como bateria de lítio contida no equipamento não restrita, podendo ser transportado via aérea conforme Instrução de Embalagem PI 967, Seção II da regulamentação em vigor.

## Material Safety Data Sheet

Reference to ST/SG/AC.10/30/Rev.5 (GHS)

### Section 1 - Chemical Product and Company Identification

#### Chemical product identification

**Sample Description:** Li-ion Rechargeable Battery

**Sample Model:** 18650

**Recommended Uses:** Power Bank

**Restrictions on use:** N/A

**Supplier name:** EVERWIN TECH CO., LIMITED

**Address:** BLDG1, MEILAN INDUSTRIAL PARK, DALANG

ROAD(S), LONGHUA, SHENZHEN, CHINA

**Phone number:** 86-755-81752844

**FAX:** 86-755-81752840

**E-mail:** sales01@ewtbattery.com

**Emergency phone number:** 0755-81752844

### Section 2 - Hazards Identification

**Emergency overview:** This product is an article which contains a chemical substance. Safety information is given for exposure to the article as sold. Intended use of the product should not result in exposure to the chemical substance. This is a battery.

**In case of rupture:** the below hazards exist.

**CAS# 7440-50-8**

#### Classification according to GHS

Specific target organ toxicity, single exposure; Respiratory tract irritation (3)

Specific target organ toxicity, repeated exposure (1) (liver)

Hazardous to the aquatic environment, long-term hazard (3)

#### Label elements

**Hazard pictogram(s):**

**Signal word:** Danger

#### Hazard statement(s):

H335 May cause respiratory irritation

Report No.: MZIGAJZN26910719 Date: 01.01.2019 Page 2 of 11

Pony Testing International Group

**H372 Causes damage to organs through prolonged or repeated exposure (liver)****H412 Harmful to aquatic life with long lasting effects****Precautionary statement(s):****Prevention:**

P271 Use only outdoors or in a well-ventilated area.

P260 Do not breathe dust.

P264 Wash skin and clothing thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P273 Avoid release to the environment.

**Response:**

P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P312 Call a POISON CENTER or doctor, if you feel unwell.

**Storage**

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.

**Disposal:**

P501 Contents or container handling to approved waste treatment plants.

**CAS# 7429-90-5****Classification according to GHS**

Specific target organ toxicity, repeated exposure (1) (Lung)

Hazardous to the aquatic environment, long-term hazard (4)

**Label elements****Hazard pictogram(s):****Signal word: Danger****Hazard statement(s):****H372 Causes damage to organs through prolonged or repeated exposure (Lung)****H413 May cause long lasting harmful effects to aquatic life****Precautionary statement(s):****Prevention:**

P260 Do not breathe dust.

P264 Wash skin and clothing thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P273 Avoid release to the environment.

**Response:**

P314 Get medical advice if you feel unwell.

Pony Testing International Group

Report No. : MZIGAJZN26910719 Date: 01.01.2019 Page 3 of 11

**Storage**

None.

**Disposal:**

P501 Contents handling to approved waste treatment plants.

**Other hazards****Physical and chemical hazards:** See Section 10**Human health hazards:** See Section 11**Environmental hazards:** See Section 12**Section 3 – Composition/Information on Ingredients****Chemical characterization: Mixture**

| Chemical Composition                  | CAS No.     | EC#       | Weight (%) |
|---------------------------------------|-------------|-----------|------------|
| Cobalt lithium manganese nickel oxide | 182442-95-1 | ---       | 40         |
| Graphite                              | 7782-42-5   | 231-955-3 | 18         |
| Phosphate(1-), hexafluoro-, lithium   | 21324-40-3  | 244-334-7 | 18         |
| Copper                                | 7440-50-8   | 231-159-6 | 10         |
| Aluminum                              | 7429-90-5   | 231-072-3 | 5          |
| Polyvinyl chloride resin              | 9002-86-2   | ---       | 2          |

**Section 4 - First Aid Measures****Description of first aid measures****General information** No special measures required.**After eye contact**

Flush eyes with plenty of water for several minutes while holding eyelids open. Get medical attention if irritation persists.

**After skin contact**

Remove contaminated clothing and shoes. Immediately wash with water and soap and rinse thoroughly. Wash clothing and shoes before reuse. If irritation occurs, get medical attention.

**After inhalation**

Remove victim to fresh area. Administer artificial respiration if breathing is difficult. Seek

Pony Testing International Group

Report No.: MZIGAJZN26910719 Date: 01.01.2019 Page 4 of 11

medical attention.

**After swallowing**

Do not induce vomiting. Get medical attention.

**Personal protective equipment for first-aid responders:** No data available.**Most important symptoms/effects, acute and delayed:** No data available.**Indication of immediate medical attention and special treatment needed:** No data available.**Section 5 - Fire Fighting Measures****Suitable extinguishing media:**

Use extinguishing agent suitable for local conditions and the surrounding environment.

Such as dry powder, CO<sub>2</sub>.**Unsuitable extinguishing media:**

No data available.

**Specific Hazards arising from the chemical:**

Special hazards arising from the substance or mixture

Battery may burst and release hazardous decomposition products when exposed to a fire situation. Lithium ion batteries contain flammable electrolyte that may vent, ignite and produce sparks when subjected to high temperature(&gt;150°C(302°F)), when damaged or abused (e.g. mechanical damage or electrical overcharging); may burn rapidly with flare-burning effect; may ignite other batteries in clothes proximity.

**Specific protective actions for fire-fighters:**

Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.

**Section 6 - Accidental Release Measures****Personal precautions:**

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

**Protective equipment:**

No data available.

**Emergency procedures:**

Remove ignition sources, evacuate area. Sweep up using a method that does not generate dust. Collect as much of the spilled material as possible, placed the spilled material into a suitable disposal container. Keep spilled material out of sewers, ditches and bodies of water.

**Environmental precautions:**

Pony Testing International Group

Do not allow material to be released to the environment without proper governmental permits.

#### Methods and materials for containment and cleaning up:

All waste must refer to the United Nations, the national and local regulations for disposal.

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

### Section 7 - Handling and Storage

#### Precautions for safe handling:

Consumption of food and beverage should be avoided in work areas.

Wash hands with soap and water before eating, drinking.

Ground containers when transferring liquid to prevent static accumulation and discharge.

#### Information about fire and explosion protection

Batteries may explode or cause burns, if disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.

#### Conditions for safe storage, including any incompatibilities:

##### Requirements to be met by storerooms and receptacles

Store in a cool, dry, well-ventilated place.

##### Information about storage in one common storage facility

Keep away from heat, avoiding the long time of sunlight.

##### Further information about storage conditions

Keep container tightly sealed.

##### Specific and use

No data available.

### Section 8 - Exposure Controls/Personal Protection

#### Control parameters

**Appropriate engineering controls:**

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Remove all soiled and contaminated clothing immediately.

Wash hands before breaks and at the end of work.

**Personal Protective Equipment**

**Respiratory protection:** Wear suitable protective mask in order to reduce the respiratory system. A large number of leakage, wear chemical protective clothing, including self-contained breathing apparatus.

**Hand Protection:** Wear appropriate protective gloves to reduce skin contact.

**Eyes Protection:** Wear safety goggles or eye protection combined with respiratory protection.

**Skin and Body Protection:** Working environment required, wear suitable protective clothing to minimize contact with skin. The type of protective equipment must be according to the concentration and the content of certain hazardous substances in the workplace.

**Transport Information:** The Li-ion Rechargeable Battery (18650) has passed the test UN38.3, according to the report ID: MZIBSGTA50530521.

According to the Packing Instruction 965 section II of IATA DGR 60<sup>th</sup> Edition for transportation.

According to the special provision 188 of IMDG (37-14). The products are not subject to dangerous goods.

Separate batteries to prevent short-circuiting, and they should be packed in strong package during transport. Lithium cell or battery should incorporate a safety venting device or be designed to prevent a violent rupture under normal transport conditions. Keep away from high temperature and open flames.

**Transport Fashion:** By air, by sea.
